

**EAGLE BEND METROPOLITAN DISTRICT**  
**QUARTERLY PROGRESS-TO-DATE REPORT**

**MARCH 31, 2025**

Eagle Bend Metropolitan District (the “District”) has conducted regular monitoring and scanning of its information and communication technology (“ICT”), as such term is defined in 8 CCR § 1501-11.4, as further described below:

- The District has conducted periodic reviews of the front facing pages for accessibility and is keeping monthly scans on file.

The results of the regular scanning and monitoring show the District’s ICT having an overall compliance score of 100% with the Technical Standards, as such term is defined in 8 CCR § 1501-11.5. The District continues to remediate known compliance issues in the following areas:

- Fix any compliance issues identified in the regular scans.
- Engage a third-party vendor to remediate documents required by statute to be on the website.
- Engage Streamline to transition the website to an ADA compliant hosting platform.

Since the District’s previous Quarterly Progress-to-Date Report dated December 31, 2024 the District has remediated the following issues:

Fixed any compliance issues identified in the regular scans.

- Engaged a third-party vendor to remediate documents required by statute to be on the website.
- Engaged Streamline to transition the website to an ADA compliant hosting platform.
- Complete remediation of documents on the website.

The District is committed to providing equitable technological access to our services, programs, and activities. The District’s ongoing technology accessibility efforts work toward being compliant with the Technical Standards. To that end, the District endeavors to continuously improve the technological accessibility of its ICT demonstrated by this Progress-to-Date Report.
